**Why is huge difference
between our
Dreams and Reality ?**

What is the reason?

MONEY
MONEY
MONEY

- **Rising Inflation**
- **Way to earn Money**

Survey of rising inflation rate in India

Year	Expenses (per month)
1940	Rs 10/-
1960	Rs 100/-
1980	Rs 1000/-
2000	Rs 10,000/-
2020	Rs 1,00,000/-

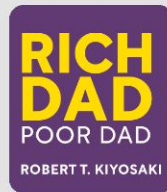

Home expenses for atleast 1-2 lakhs of Rupees will be required in future.

We can not stop inflation, we have to look at other ways of earning money, Will have to think....

Active

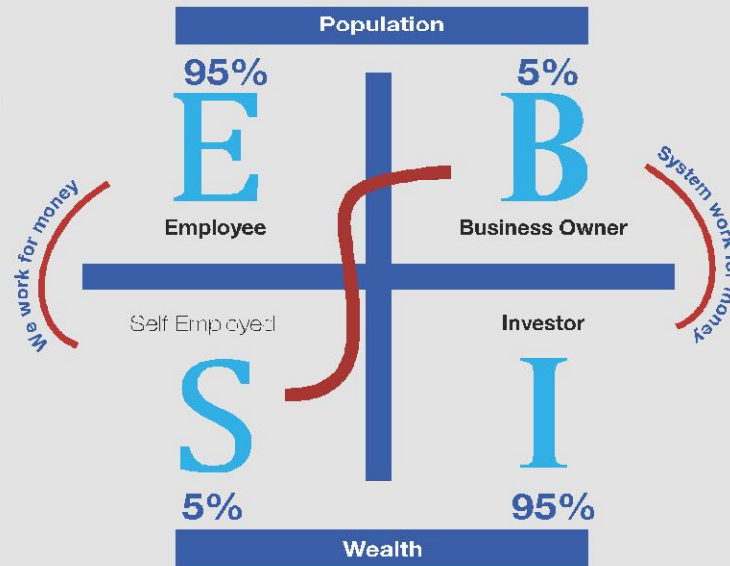

Income
We work for money

Robert T. Kiyosaki
(Famous Author/Financial Advisor)
Book Name

Passive

Income
Money work for us

As per a study, if the world's total wealth is distributed equally between both the quadrants, even then in the next five years the overall ratio would again reach 5% : 95%.

So to make money, we also need to move from **Active Income** to **Passive Income**.
We will now tell you **HOW?**

Active

We work for money

ACTIVE INCOME

- This income is based on your personal time. We have only 24 hrs in a day and we spend entire 24 hrs to generate income.
- You have to work continuously year to year to get this income. If you don't work then it will directly affect your income negatively.
- Your income depends on your ability. You become an expert with time & start giving more time to work so that you can continue earning this income. Have you ever thought, what will happen to this income if you are not able to work? Will your spouse be able to earn this income by working in place of you?

Passive

Money work for us

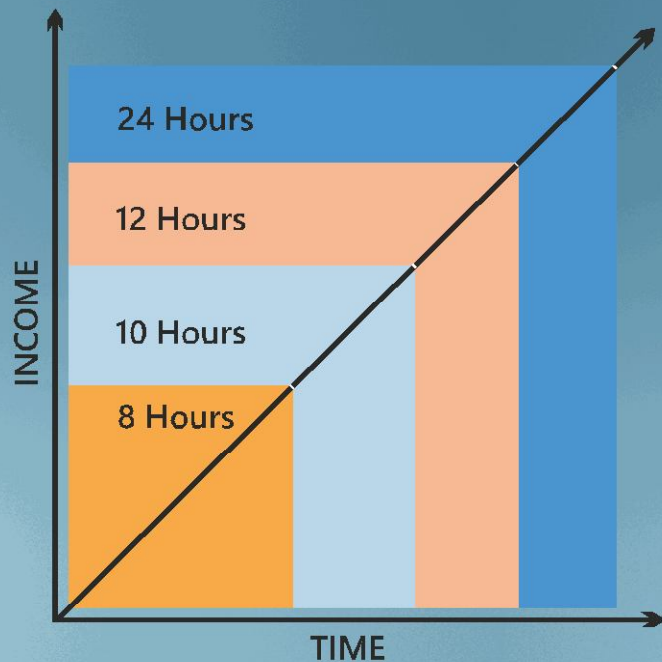

PASSIVE INCOME

- Many of us don't know that Royalty income can be earned by Time Leveraging also. This kind of passive income can be earned by working on Franchisee System. Few famous examples of this are McDonalds, Bata, Café Coffee Day, NIIT, etc. They are all using the Power of Duplication (Time Leveraging) which has the power of Networking.
- In this business, we use this same powerful system of Duplication (Networking or Time Leveraging) to earn Royalty Income.

Time, Money & Security

Is our Source of Income Safe ?

- As we have limitation of time – 24 Hrs
- As we have limited man-power
- As whatever time we invest in work, we will get income in that proportion.

**Whatever time we put in work,
income will come in that proportion**

THINK...

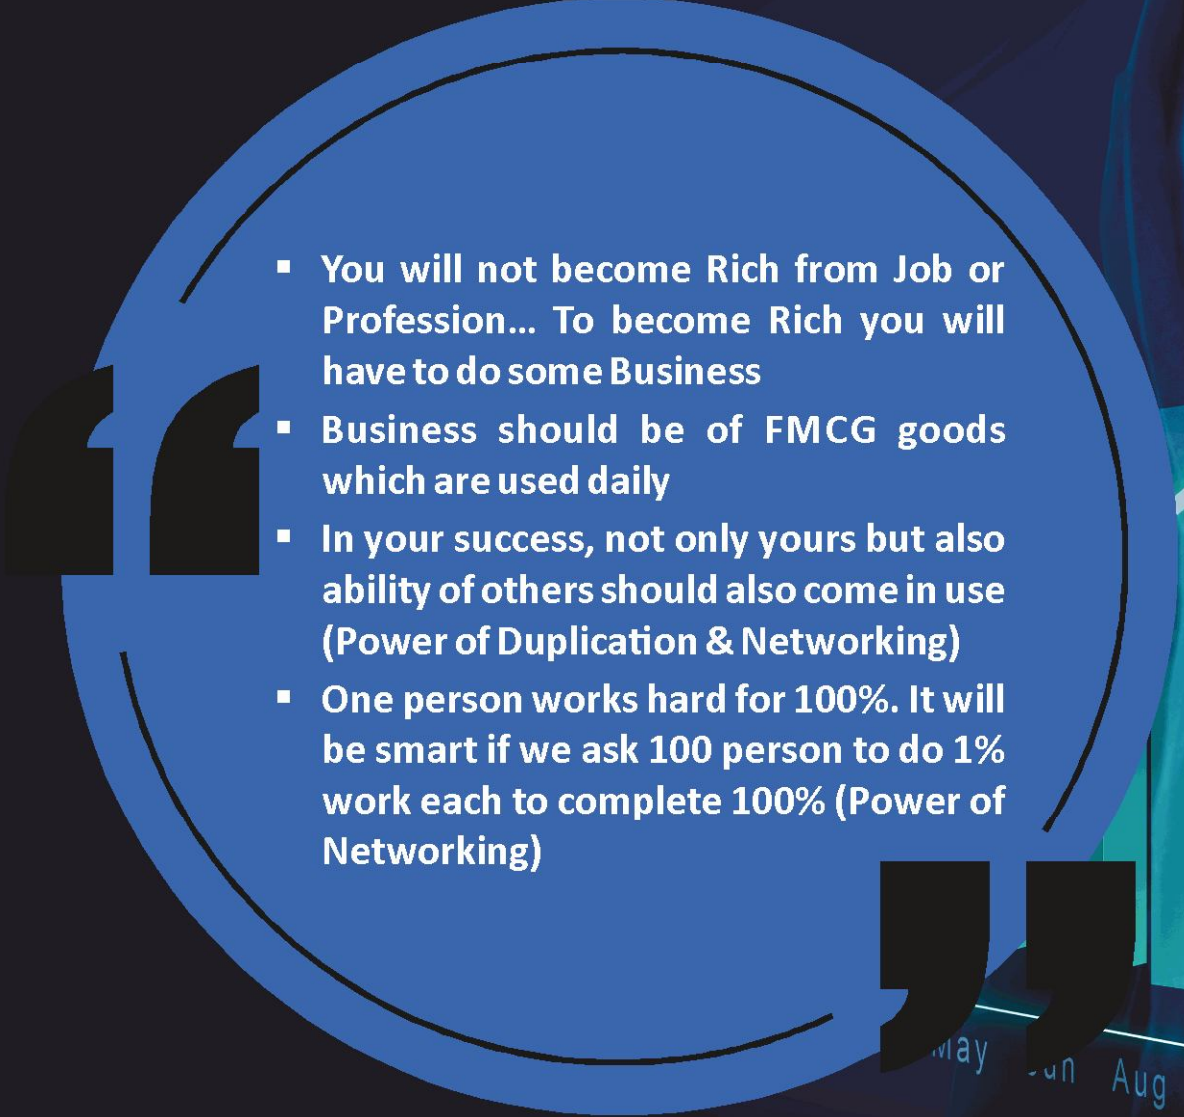

- Do we have a secured Income?
- If our ability is reduced to 99% then will we get the same income?
- Will this income keep coming if we are not alive?
- If you don't show up at your job, will you still get this income?
- If you do not open the shop, will you still get this income?

***We have to break
this system.***

FAMOUS ECONOMIST

J. Paul Gaty says...

- 
- You will not become Rich from Job or Profession... To become Rich you will have to do some Business
 - Business should be of FMCG goods which are used daily
 - In your success, not only yours but also ability of others should also come in use (Power of Duplication & Networking)
 - One person works hard for 100%. It will be smart if we ask 100 person to do 1% work each to complete 100% (Power of Networking)

Philosophy to Create Wealth

POWER OF DUPLICATION

Duplication of Time + Duplication of Manpower = Multiplication of earning

We can work this type

100% WORK
from 1 person

Result

24 Hrs. of work output.

or

1% WORK
from 100 persons

Result

24 Hrs. of work output.

or

10% WORK
from 100 persons

Result

240 Hrs. of work output.

Till today we couldn't earn huge amount of money as we have limited time & limited manpower.

Example

If a vegetable vendor could not open his shop due to illness, he will earn nothing.

Reliance Fresh have 1000 stores, if any 1 or 2 stores closes then also owner's income will not get affected.

POWER OF DUPLICATION

In the 1st method everything depends on a person's presence & ability. Means No Person No Work. This is the scenario of our traditional business or services.

In the 2nd method, only 1% work is being done by 100 people that is less work done by many people. Therefore, the work is not dependent on any one person's ability.

Franchisee system is the best example of Duplication like McDonalds, Reliance Fresh, Bata, etc. Owners who opened franchisees, they have duplicated their time & ability. Now they have freedom of time, money & financial stability.

In this method the only drawback is that one person can do the duplication and rest of the people work for him. For example, Bata has

opened franchisees which will duplicate his Time & Money. In this case Bata's income is neither dependent on his ability nor his time. Even if a shop or franchise closes down, Bata's income does not get affected.

But the person who opened the Bata Franchise, cannot duplicate it. **No Shop No Income.** Bata did SMART WORK but the franchise owner is still doing HARD WORK. Also, to open a franchise system, one needs huge amounts of money in lacs & crores.

Now the question arises that... IS IT POSSIBLE that each & every PERSON Does HIS DUPLICATION AND THAT TOO WITHOUT ANY INVESTMENTS? Is it possible for a Franchise to give franchise further? Can he also duplicate time, money and also get financial stability?

**If you really want to fulfill your
& your family's Dreams Than**

**POWER OF
DUPLICATION**

**you have to take firm decision about choosing
Power of duplication.**

Do you have any other *Option* like this ?

Consumer Empowerment Opportunity

(Use & Earn)

- Do you earn anything from your expenses?
- Does your expenses become your investment?
- Do you get cash back from any of your expenses?
- Do you Promote or share with anyone about whatever cash back you get? Do you get money if anyone with whom you shared this do some purchases?

If not it is possible NOW as you have an opportunity to become a **Smart Consumer.**

USE
&
EARN

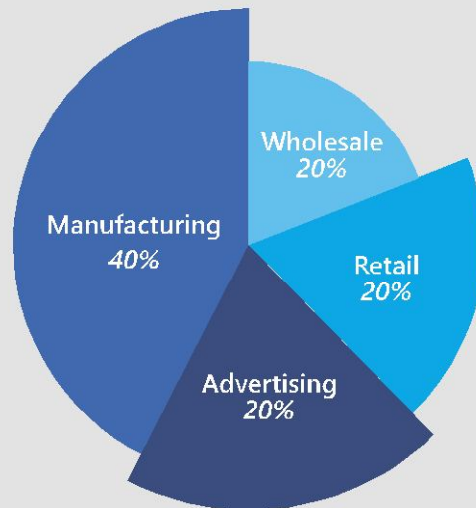

In reality, this is a kind of consumer empowerment. Till today, there was no chance of making money from our purchased products but this unique proposal made this happen. Now you can Use & Earn. For this we just need to change the Brand of Products being used by us which have the best quality, Fair Price, Money back guarantee and on top of all it will generate Income so why give a second thought?

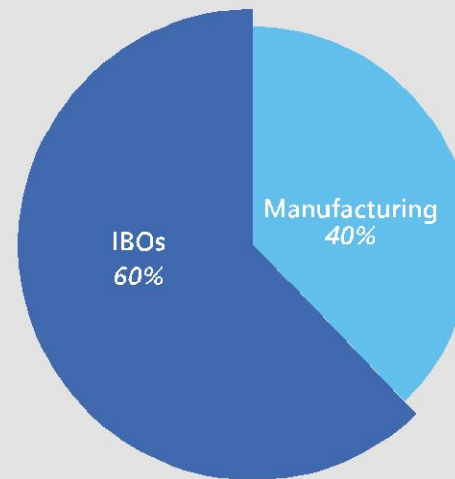

You have a chance to become an Entrepreneur

Just help your friends to become a Smart Consumer, by this your Consumer Network will start to build and you would become a Smart Entrepreneur

HOW MONEY WILL BE EARNED

Traditional System

Private Franchising

MANUFACTURER TO CONSUMER
NO MIDDLE MEN

In traditional business method, every product reaches a consumer from a manufacturer through C&F, Whole Seller, Retailer, etc. Also a very big amount gets spent on advertisements, commissions and margins. So all this additional costs are borne by the Consumer.

In Networking system, product reaches directly from Manufacturer to Consumer and the money saved here gets distributed among the distributors in the network. For example, we get products at a cheaper rate from online shopping as the money is saved which is given to middlemen.
